ABOUT ME

I am an enthusiastic Junior Web Developer with experience in frontend and backend development using Vue.js, Tailwind CSS, Pinia, and Laravel. I have worked on updating frontend features, implementing admin portal functionality, and QA testing. I also have creative skills in video editing, motion graphics, and graphic design. I am passionate about building modern and efficient web applications and eager to contribute my skills while growing in a professional team.

EXPERIENCE

Intern Web developer

Content First Cambodia

08 / 2025 - 01 / 2026

- Developed and maintained frontend features using Vue.js, Tailwind CSS, and Pinia.
- Updated and improved the Yumbite Cambodia frontend platform.
- Implemented new menu session features on the Admin Portal.
- Collaborated with the team to integrate frontend with backend APIs.
- Performed QA testing for the Syncra project, identifying and reporting bugs.
- Assisted in debugging and fixing frontend issues to ensure smooth application performance.
